NEW Sage 50 HR

The answer to your questions

As an employer it is your legal responsibility to keep and provide certain information about your employees, New Sage 50 HR enables you to do this with ease. Gather everything from evidence of their right to work, permit details and conditions of employment, to personal details, pre-employment checks and proof of identity.

New Sage 50 HR provides an easy, efficient and secure way for you to store and record important employee information such as employee performance, appraisals, disciplinary records, holidays, absences and training records.

New Sage 50 HR puts all your employee information at your fingertips at the touch of a button.

Improved Integration
Import more information from a Sage Payroll solution

Improved Reporting
Create professional reports with improved content, look and feel

What's new?

New Easy Installation
With less installation steps and more simple guidance, Sage 50 HR is now quicker and easier to install than ever before.

Delete Multiple Employees
New Sage 50 HR allows you to delete a selection or group of employees, so you can easily keep your files up-to-date.

New Support Home Page
If you do need to call us for support, the New Support Home Page will pull together all the key information from your software and PC into one handy screen, so we can deal with your query quickly and easily and you don't have to spend valuable time searching for information.

New Data Relocation
Means you can easily configure and relocate where your data files are installed.

Simple Configuration and Backup
With new Sage 50 HR we have provided a MySQL Configuration Utility that enables you to seamlessly take and restore backups, configure and share data locations and relocate data files, all at the click of a button.

64Bit Compatibility
Sage 50 HR is now compatible with 64Bit variants of Windows operating systems giving you more choice as to how you install your software.
