Sage CRM
Empowers Sales Teams to Sell Effectively

Sage CRM directs your sales efforts towards the most profitable, most winnable deals, and helps you make the most of cross-selling and up-selling opportunities. With instant access to pipelines, calendars, sales reports, contacts, and much more, your sales people are freed up to focus all their efforts on selling.

With Sage CRM, the sales team can manage and action all their activities from the interactive dashboard. This intuitive and interactive workspace enables the sales team to monitor their opportunities and pipeline, manage their calendar and tasks, and identify powerful networking opportunities from LinkedIn®, all from this customisable workspace.

Easy to use analytical tools help your sales team to identify latent sales opportunities which exist within your customer database, and then create cross-sell and up-sell propositions accordingly. Automated workflow and pipeline management eliminate unnecessary paperwork and ensure that sales teams are optimising their sales processes and adhering to company-specific sales stages. This means that opportunities will be progressed as quickly and efficiently as possible.

"In the sales department, Sage CRM is the tool that we use all day long. It is vital in fact, because we log all our customer contact in Sage CRM and all our opportunities are tracked in Sage CRM. We would actually lose sight of our opportunities if we didn't have a system like Sage CRM."

Aine O'Mahony, Business Development Team Leader, CarTrawler

Sage CRM
Ensure Customer Satisfaction & Loyalty

Keeping customers loyal and providing them with a satisfying and consistent customer experience can be hard to perfect. Sage CRM enables your company to roll out web-based customer self-service quickly and cost effectively. From here, users can service their own information needs, track data and update the system without the requirement for customer service assistance and at the time and place of their choice.

Additionally, you can maximise the synchronisation between your service agents and your customers, ensuring that cases are progressed in a timely manner and in accordance with service level agreements (SLA). All cases can be managed directly from the interactive dashboard removing the need to switch between screens, maximising the productivity of agents. Knowledge management capabilities make it easier to capture remedies related to specific issues which may recur over time, making sure that agents are not duplicating effort.

Benefits of Sage CRM to the Customer Services Team

- Manage your customer accounts with insight and collaboration

- Respond to customer cases quickly, reducing response times to customer service requests

- Enable agents to quickly and accurately find the right answer the first time

- Enables customer satisfaction measurement and benchmarking

- Increases productivity of customer support representatives

- Provides self-service facility to customers around common issues

- Enables customer issues to be tracked and responded to, regardless of who answers the phone or receives the email

Sage CRM
Interactive Dashboard & Cross-Browser Compatibility
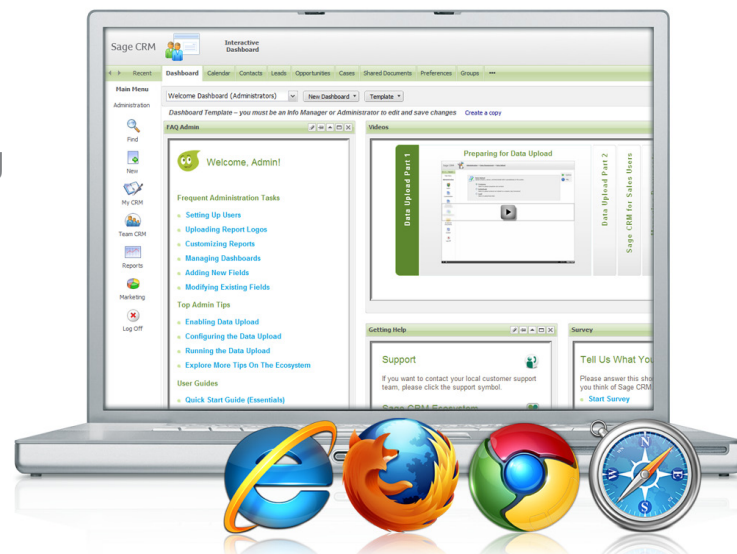

Interactive Dashboard

The Sage CRM interactive dashboard revolutionises the way you manage your business and how your employees manage their day. The interactive dashboard delivers a rich and personalised user experience that boosts productivity and helps drive user adoption across the business.

With the Sage CRM interactive dashboard, users can manage all their activity from one place. This includes their calendar, their tasks, their lists and web and RSS feeds, driving productivity throughout your organisation and enabling your staff to accomplish more from a tailored workspace that combines the information they use every day.

Using innovative drag and drop functionality, users can re-size and re-position gadgets, enabling them to personalise the data they see and how it is presented to them. This delivers an intuitive and convenient way to view and action items, reducing the need to switch between screens. A number of pre-installed role-based dashboards are available out-of-the-box for sales, marketing, customer service and management. Users can also create bespoke company dashboards for key accounts ensuring that relevant content is available for maximum efficiency.

Cross-browser Compatibility

Sage CRM provides end users with the ability to access their solution across all modern internet browsers and work efficiently through the modern, intuitive interface. Supported browsers include Internet Explorer (versions 7, 8 and 9) and the latest versions of Firefox, Chrome and Safari.

Access your personalised interactive dashboard from the browser of your choice with cross-browser compatability.

"The Sage CRM for iPhone add-on is great. It's clean and crisp and very readable - I love the use of the spinners for the select lists! It gives my users the ability to get basic information while out in the field and for a service company that's huge."

Sage CRM
Integrate Your Sage CRM & Sage ERP Solutions

Integrated with your Sage ERP applications, Sage CRM provides a complete view of the business and streamlined end-to-end business management capabilities.

Staying connected, linked in and accessible are fundamental requirements for every fast-paced small and medium-sized business – which is why Sage CRM has a range of inclusive solutions for better business integration.

Integration with leading Sage ERP systems gives your employees access to all the customer data they need for a complete view of every customer; making every customer interaction more informative and effective. These integration capabilities give everyone in your business access to financial and transactional customer data in addition to CRM data for a true single view of the customer.
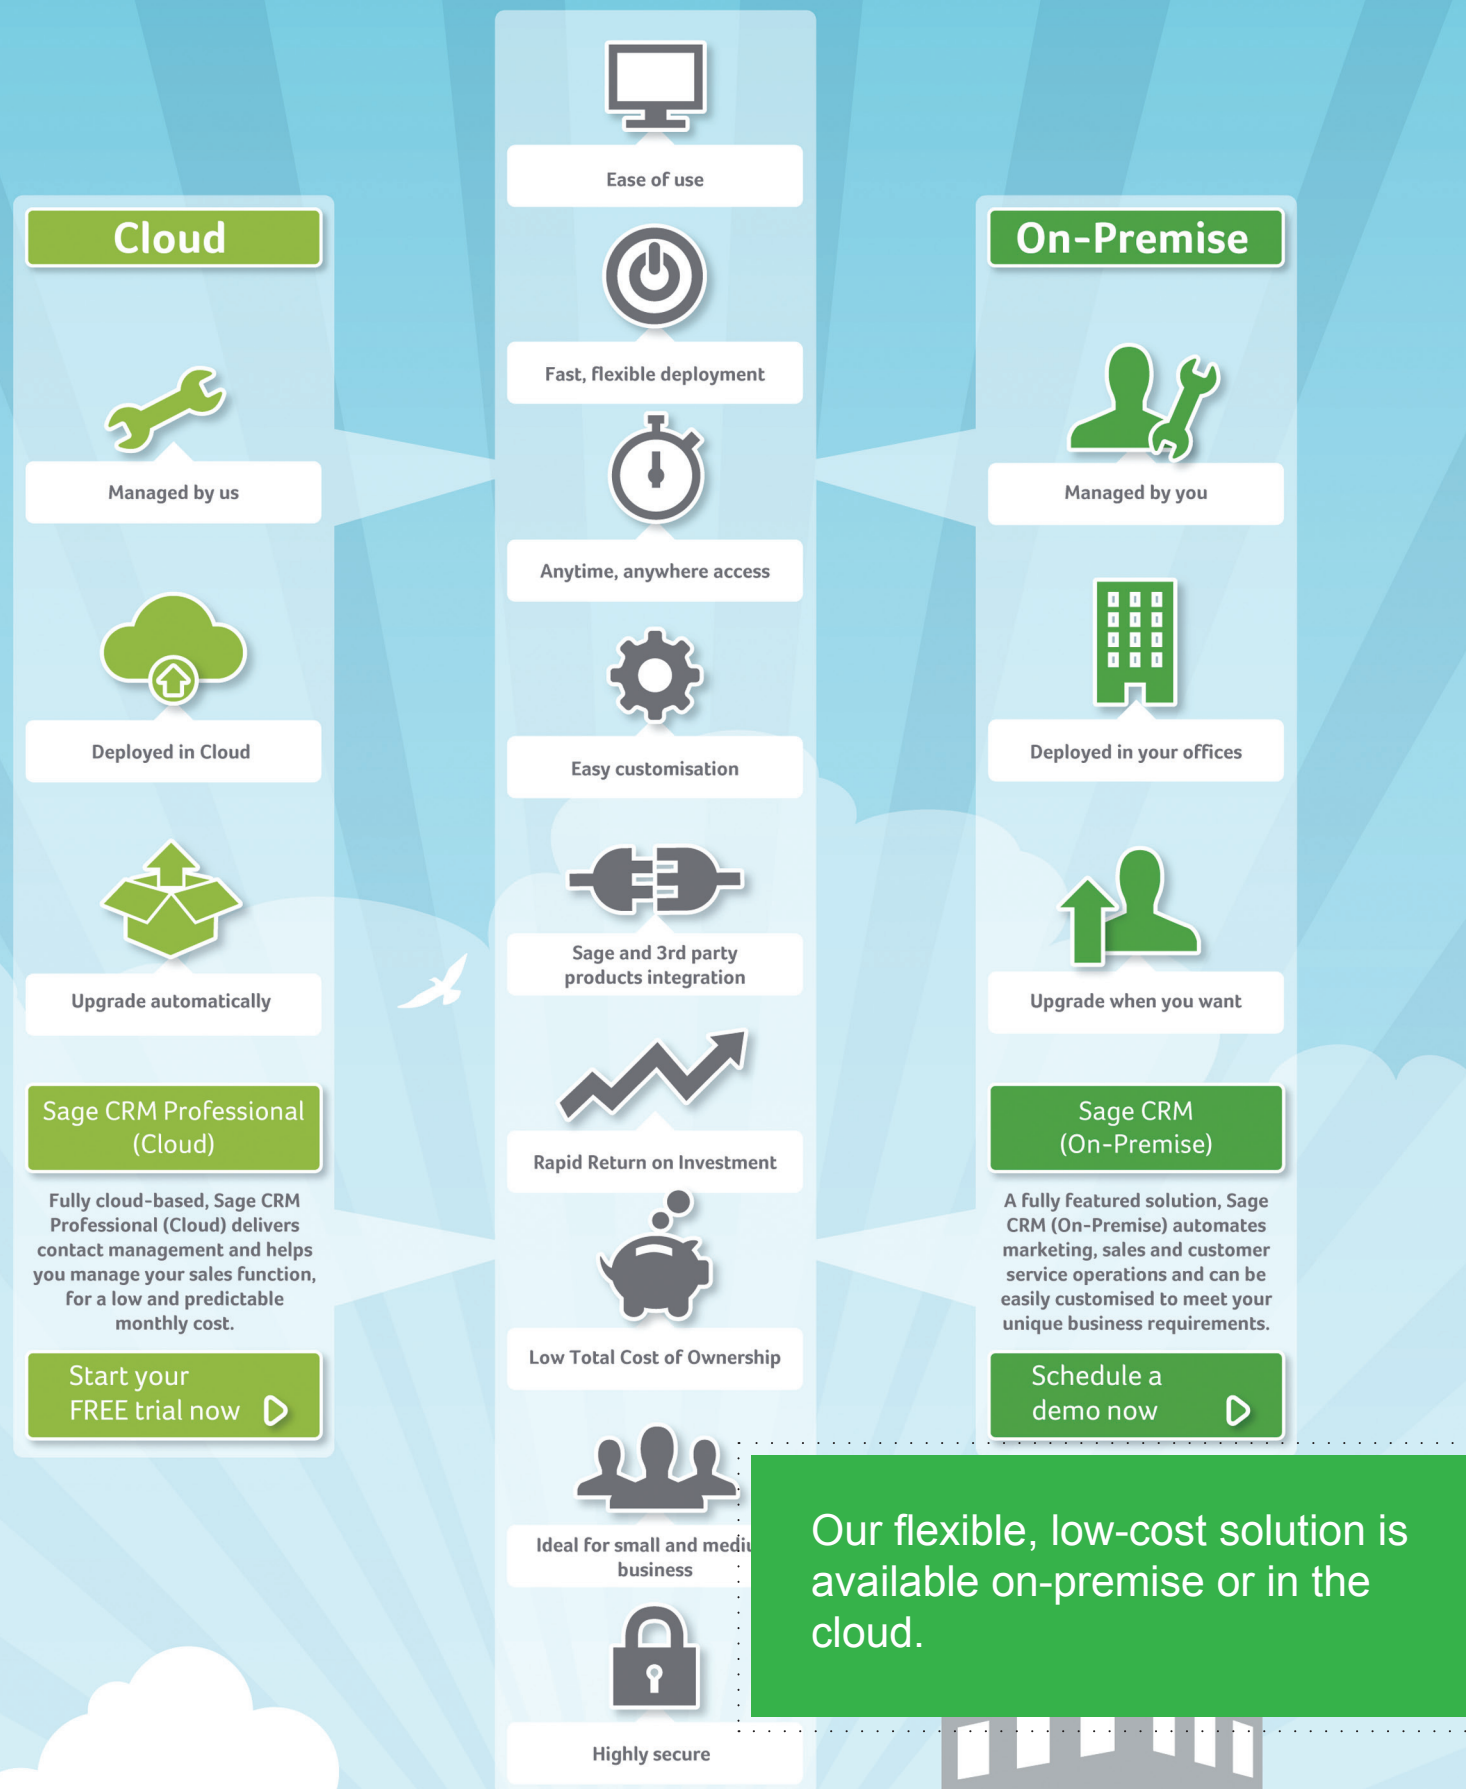

ERP integration ensures your sales teams are equipped with the most accurate and up-to-date information regardless of where that information is located. Operations are optimised as a result and there is less potential for delay, misunderstanding and error.

In a similar way, marketing staff can leverage account information, enabling them to identify buying trends or suitable target segments.

Access to financial information on customers, provides the marketing team with the ability to create marketing lists based on financial profiles and target customers with good credit ratings and purchase histories.

Customer Service agents can access crucial data to give accurate information to customers without delays, thereby improving customer service and driving customer loyalty. Information from the Sage ERP system can be displayed directly on the interactive dashboard for quick and easy access.

"We believe that we're now one of the leaders in the industry in providing critical information to clients, instantly accessible whenever they want it. This helps us to win new business and enhance our service to existing clients."
